Fishing at Munroe Lake Lodge

Our 2007 fishing season began on June 11th and ended on September 9th. *The Munroe Lake Lodge* Brag Board is again very impressive this year. This season, for the first time, Munroe produced almost as many Trophy Trout as Trophy Pike.

One other observation was the number of fish, just under trophy size, that were being caught. These are surely Munroe's future pride and joy!

Wilbur! Where are you?

This summer, there were many sightings of Wilbur, Munroe Lake's 55+ inch Northern. One avid fisherman had the privilege of hooking and partially netting this monster. When we say partially, it is because the net could only hold a portion of this fish. At the last minute, Wilbur got away.

Maybe next year!!!

Caribou Hunts

4 Great hunts!

(August 31- September 20)

The weather was not always cooperative, however the Caribou were right on time. The migration flowed through camp as it never has before. Every hunt was successful and produced many possible trophy bulls. One good thing about the cold weather...NO BUGS!!!!

Congratulations to all!

Moose Hunts

Trophy Moose at Munroe

This season, *Munroe Lake Lodge* had the privilege of welcoming 5 Moose hunters. The 9 day hunt was very successful, as 3 out of 5 hunters succeeded in calling in their Moose. The racks measured 36 in., 50 in. & an impressive 55 inches.
